Sir:

REQUEST FOR CORRECTION OF FILING DATA

The Filing Receipt and other associated documents indicate the incorrect PCT and Italian priority application numbers. The correct numbers are: PCT/IT2003/000757 filed November 20, 2003 and RM2002A000620 filed December 13, 2002. These numbers and dates are correct in the inventors' declaration. The correct PCT number and other filing data are shown on the face of the published PCT application, copy attached. It appears that the last three digits of the PCT application number became rearranged and this, in turn, reflected an incorrect number and information for the underlying Italian priority document.

Also attached is an Application Data Sheet showing the correct information.

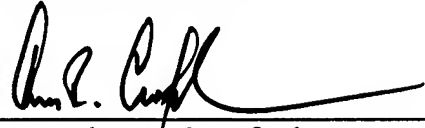

Would you kindly adjust the official records accordingly?
